Carbon Reduction Plan

Supplier name: CityAxis Limited

Publication date: January 2026

Commitment to achieving Net Zero

CityAxis Limited is committed to achieving Net Zero emissions by 2030.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
This is CityAxis' first reporting period. CityAxis Limited is ISO 14001:2015 certified and we produce an Environmental Aspects and Impacts Register annually. CityAxis is certified under Chartered Institute of Procurement & Supply for the following: • Ethical procurement and supply • Climate change and carbon reduction Please see our Environmental Policy and Strategy for further information. This Carbon Reduction Plan includes for emissions under direct control of CityAxis.	
Baseline year emissions:	
EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	Gas – 0 tCO_2e – CityAxis does not purchase gas in the provision of our services.
Scope 2	Electricity - 3.492 tCO_2e

CityAxis Ltd 346 Kensington High Street London W14 8NS Tel. 020 7368 6868 www.cityaxis.co.uk
Registered in England No. 2748683 VAT No: 610 0610 15

Scope 3 (Included Sources)	1.005 tCO_2e net emissions – 64% recycling rate
Total Emissions	4.497 tCO_2e

Current Emissions Reporting

Reporting Year: 2025	
EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	Gas – 0 tCO_2e – CityAxis does not purchase gas in the provision of our services.
Scope 2	Electricity – 4.2789 tCO_2e
Scope 3 (Included Sources)	0.7962 tCO_2e net emissions – 60% recycling rate
Total Emissions	5.0751 tCO_2e

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next four years to 1.349 tCO2e by 2030. This is a reduction of 70%

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline and the measures will be in effect when performing the contract.

CityAxis Ltd 346 Kensington High Street London W14 8NS Tel. 020 7368 6868 www.cityaxis.co.uk
Registered in England No. 2748683 VAT No: 610 0610 15

Waste

- Re-use and recycle wherever possible, delivering zero waste to landfill and minimising waste to energy.
- Only partner with licensed environmental agencies.
- Measure, monitor and record all quantities throughout the project.

Travel

- Minimise distance travelled for material and staff wherever possible.
- Procure locally to promote circular economies.
- Regular workers signed up to a tracking app to record low carbon behaviour.
- Measure and record distances travelled for materials and staff on CA's Carbon Calculator

Water

- Set realistic water consumption targets at the start of the project.
- Create a Water Management Plan to determine best practices for consumption minimisation and re-use for vehicle and boot washing.
- Record site welfare and site activities water consumption by installing independent sub meters.

Responsible Sourcing

- Identify and engage trusted local suppliers at earliest opportunity.
- Regular checks on supply chain partner CSR policies.
- Use only 100% FSC Timber (preferably UK grown where available).
- 100% BES Very Good certified concrete, steel, reinforcement, plasterboard and insulation.
- Verified Environmental Product Declarations and cradle to cradle certification required for all major building materials wherever possible.

In the future we hope to implement further measures such as:

- Engage with supply chain and incorporate supply chain reporting within CityAxis Carbon Reduction Plan.

CO_2 Emissions

- Use only energy efficient site accommodation with improved insulation and glazing.
- Minimise the amount of waste moved and the distance that it travels.
- Use only FORS accredited logistics companies that have fleets maintained to required standards and drivers trained in fuel efficient driving.
- Use low-carbon fuels or electric plant and vehicles whenever possible.
- Maximise quantities on orders for deliveries to reduce number of journeys.

CityAxis is ISO 14001:2015 certified and we produce an Environmental Aspects and Impacts Register annually.

Please see our Environmental Policy and Strategy for further information.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed:

.....
